

Law and Environmental Management

**DEL RAZO
& RÁBAGO**
Environmental Consultants

www.drrambiental.com

Who we are?

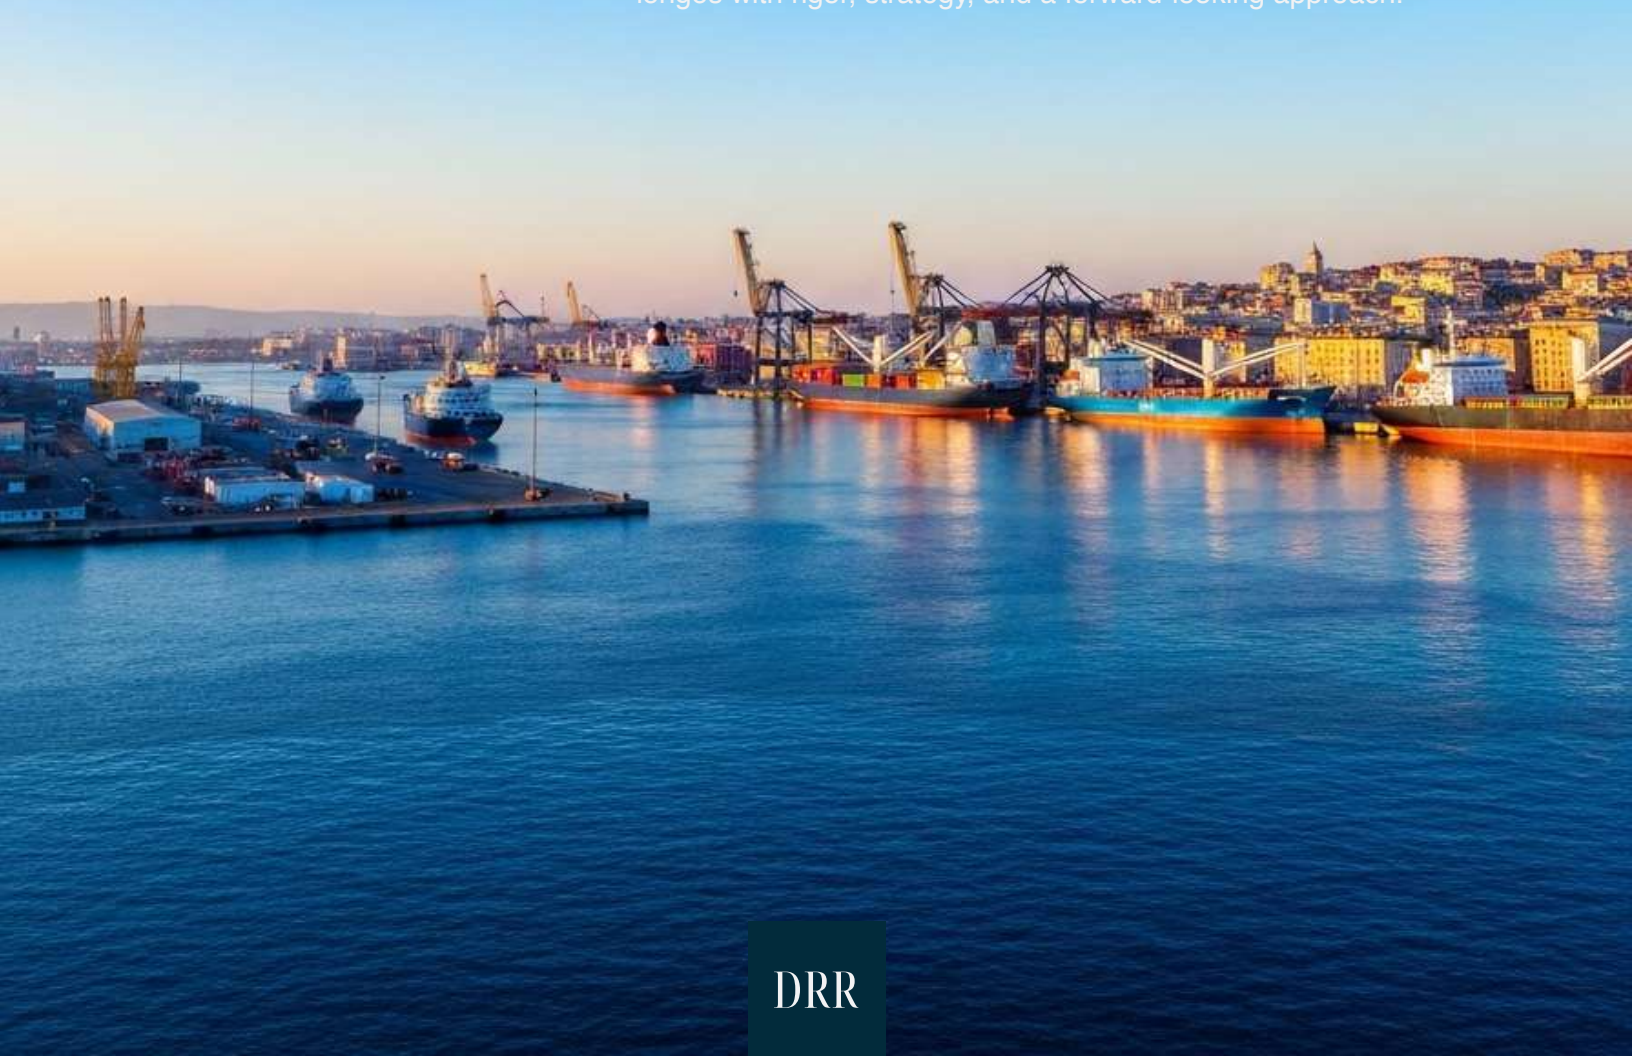

Del Razo & Rábago Environmental Consultants (DRR) is a firm dedicated to providing highly specialized legal and technical environmental advice. We were founded by two experts with more than 50 years of combined experience in both the legal and technical fields, creating a practice uniquely positioned to deliver reliable, practical, and sustainable solutions.

Our experience covers infrastructure, energy, mining, tourism, and industrial projects, where we have ensured regulatory compliance, environmental management, and the development of strong relationships with communities, authorities, and key stakeholders

Our purpose

Today's environment for both public and private projects requires a comprehensive understanding of the legal, technical, and social factors that determine feasibility. Increasing regulatory complexity, active community participation, and heightened public scrutiny make it essential to have a strategic ally that brings certainty to decision-making.

With this vision, DRR was created to accompany companies and public institutions, helping them navigate environmental challenges with rigor, strategy, and a forward-looking approach.

Our work philosophy

At DRR, we believe environmental compliance should not be treated as a bureaucratic requirement, but as a competitive advantage and a key factor for the continuity and growth of our clients.

Our guiding principles are:

- Honesty and transparency, identifying risks and opportunities early.
- Technical and legal rigor, ensuring solid and reliable solutions.
- Strategic vision, focused on present needs and long-term sustainability.

Our Founders

Carlos del Razo

Founding Partner

Carlos del Razo is a founding partner of DRR and one of Mexico's most recognized environmental law practitioners. With more than 20 years of experience, he advises companies and projects in highly regulated sectors, focusing on regulatory compliance, permitting, environmental audits, inspections, and administrative litigation.

He currently serves as President of the Mexican Environmental Impact Association (AMIA) and Co-Chair of the Sustainability Council at AIJA. He has taught at various academic programs, including the UNAM Law School, Universidad Anáhuac, and the Supreme Court's training programs.

Carlos holds a Law Degree from UDLA, a Master's in Environmental Law and Policy from the University of Kent (UK), and a specialization in Energy Management from EGADE Business School, including an academic stay at Seoul National University.

His practice has been recognized by Chambers & Partners, Best Lawyers, and Legal 500, which named him Next Generation Partner in 2025. He is the author of several specialized publications.

✉ cdelrazo@drrambiental.com

Carlos Rábago

Founding Partner

Carlos Rábago is a founding partner of DRR and an environmental consultant with nearly 30 years of experience.

He has led major environmental impact assessments and supervision programs for landmark projects such as Line 12 of the Mexico City Metro, the Suburban Railway, and the Piedra Larga Wind Farm in Oaxaca.

He is former President of AMIA and currently serves as President of its Technical Advisory Council. He is recognized for his technical precision and his ability to integrate sustainability criteria into large-scale projects.

Carlos is a Civil Engineer from UNAM with a Master's in Environmental Engineering, and a diploma from FLACSO.

He is regarded as a leading expert in soil characterization, remediation, and environmental supervision.

Our Team

Karime Vázquez **Senior Associate**

Is an attorney specialized in Environmental, Administrative, and Regulatory Law, with 10 years of experience providing legal consulting in environmental and regulatory matters. Her work includes advising on compliance, defending permits and concessions, as well as managing administrative procedures before federal and local authorities.

She has experience conducting legal audits, supporting public procurement processes, and reviewing gas supply and transportation contracts in Mexico and Texas.

Karime holds a Law Degree from ITAM and is currently pursuing a Master's in Administrative Law at the Universidad Panamericana.

✉ kvazquez@drrambiental.com

Jessica Labra **Senior Associate**

Is an environmental lawyer with 13 years of experience, specializing in regulatory compliance and risk management for companies in sectors such as energy, hospitality, airports, and agriculture. Her career includes roles in both the public sector (PROFEPA) and private practice, where she has designed and implemented regulatory compliance strategies and environmental risk management frameworks.

She has led projects involving the obtention of environmental and energy permits, regulatory audits for local and federal projects, oversight of inspection processes, and the development and follow-up of Environmental and Social Action Plans under the Equator Principles and IFC Performance Standards.

Jessica holds a Law degree from the National Autonomous University of Mexico (UNAM, FES Acatlán) and has completed several specialized programs, including diplomas in Environmental Law, Urban Development and Housing, USMCA Chapter 24 (Environment), and Human Rights, as well as courses on corporate criminal liability prevention. She has published academic work.

✉ jlabra@drrambiental.com

Alejandro Herrera **Junior Associate**

Alejandro Herrera is an attorney with solid academic training and growing experience in Administrative Law and its related regulatory areas. He has participated in administrative litigation for life-sciences matters, supporting the development of legal strategies, preparing briefs before federal administrative courts and collegiate courts, and conducting research and information-access requests that strengthen case analysis and client reporting.

He has also collaborated in regulatory and intellectual-property consulting, including document preparation, procedural follow-up, and the elaboration of reports for clients on the status and future strategy of their matters. His professional experience includes work within the legal department of a major airline, assisting in contract review, translations, corporate documentation, and day-to-day regulatory tasks.

Alejandro holds a Law degree from Universidad Panamericana, where he completed a certification program at New York University (NYU) focused on U.S. cybersecurity and technology law. He is currently pursuing a Master's Degree in Administrative Law.

Our Team

Eugenia Saldaña **Technical Consul-**

Is a Geological Engineer with extensive experience in technical and environmental consulting, specializing in geospatial analysis, environmental impact assessment, territory diagnostics, and regulatory compliance across the energy, mining, and infrastructure sectors.

She has collaborated on national-level mining projects and previously worked at the Mexican Ministry of Economy, analyzing mining concessions, supervising inspections, and monitoring compliance processes. Her skill set covers data analysis, modeling, and environmental evaluation for decision-making in complex projects.

Eugenia holds a degree in Geological Engineering from the Instituto Politécnico Nacional (IPN) and has contributed to multidisciplinary teams involved in energy and industrial project development at both federal and state levels.

✉ esaldana@drrambiental.com

Biuludani Altamirano **Of Counsel**

Attorney specialized in Administrative Law and Regulatory Affairs, with broad experience in strategic litigation and the comprehensive analysis of complex regulatory frameworks. He has advised companies in highly regulated sectors, designing legal strategies for the defense of governmental rulings, regulatory compliance, and legal risk management.

He has participated in high-complexity litigation involving energy regulation, fuel standards, and governmental programs, developing preventive and corrective legal strategies that have enabled clients to ensure compliance and mitigate operational and regulatory risks. His experience includes the preparation of regulatory analyses, implementation of compliance programs, support during inspections, and representation in proceedings before the Federal Court of Administrative Justice and federal judicial bodies.

He holds a Law degree from UNAM with a specialization in Administrative Law, a Master's Degree in Legal Argumentation from the University of Alicante, and a diploma in Circular Economy from the Universidad del Medio Ambiente. He has also completed graduate studies in Energy Law and Energy Transition strengthening his regulatory practice with a sustainability-focused perspective.

✉ baltamirano@drrambiental.com

Rodrigo Arellano **Law Clerk**

Is a Law Intern at UNAM with experience in administrative, civil, commercial, and environmental matters. He has worked on legal drafting, case analysis, and procedural follow-ups across various practice areas. Within DRR, he supports the team in preparing legal documents, conducting compliance reviews, and coordinating submissions and follow-ups with federal and local environmental authorities.

His academic background includes advanced coursework in administrative and environmental law, complemented by hands-on experience in litigation support and regulatory research.

Recognitions

Carlos del Razo: President of AMIA, Co-Chair of AIJA’s Sustainability Council, recognized by Legal 500, Chambers & Partners, and Best Lawyers.

Carlos Rábago: Former President of AMIA, environmental expert with more than 25 years of technical experience.

Both founders have contributed to the development of Mexican environmental standards and public policy.

Our numbers

+50 years of combined environmental consulting experience.

Union leadership in environmental consulting at AMIA.

+100 projects successfully advised across key sectors (energy, infrastructure, mining, tourism, industry).

Previous participation in COMARNAT, the body responsible for developing official Mexican standards on environmental matters.

Recognized by Legal 500, Chambers & Partners, Best Lawyers.

Sectors of specialization

DRR's strength lies in the diversity of projects our partners have led throughout their careers. From planning to operation, we support companies and public institutions across multiple industries that require environmental certainty and effective, reliable solutions.

Energy

Legal and technical advisory for electric generation projects, hydrocarbons, and renewable energy. Experience includes participation in large-scale wind farms, photovoltaic plants, and major energy infrastructure.

Mining

Environmental impact assessments for exploration and exploitation projects, including soil remediation and the management of environmental liabilities.

Infrastructure

Environmental support for public and private works: highways, airports, maritime ports, and urban transportation systems. Landmark projects include Line 12 of the Mexico City Metro and the Suburban Railway.

Tourism and Protected Natural Areas

Environmental management for projects in sensitive ecosystems, ensuring compliance with legal frameworks and the preservation of natural resources.

Industry

Environmental consulting for key sectors such as automotive, food and beverage, metallurgy, and advanced manufacturing.

Real Estate Development

Comprehensive advisory for projects in coastal areas, forests, and jungles, ensuring regulatory compliance and social acceptance.

Transportation and Mobility

Environmental assessment and supervision in railway, roadway, and urban transport projects, with a focus on sustainability and impact mitigation.
